

STCCCV 2026

46th Tunisian National Congress of the STCCCV and Maghreb Cardiology Congress

November 12, 13 et 14 – 2026

Preprogram

Thursday 12 November 2026

	Salle 1 Jasmin	Salle 2 Tulipe	Salle Iris	Salle Lys
9H00 → 10H30	<p>The failing Acute Right Ventricle</p> <p>RV-related electrical storm</p> <ul style="list-style-type: none"> ○ Quand? The “When” F Boudiche (12’) ○ The “How-to” Z Jabberi (12’) <p>-Unloading the RV:</p> <ul style="list-style-type: none"> ○ The surgeon's perspective Z Daoud (12’) ○ The intensivist’s perspective F Daly (12’) <p>Assessing haemodynamic during RV-related cardiogenic shock</p>	<p>Obstructions of the Right Ventricular Outflow Tract</p> <p>- Echocardiographic assessment of right ventricular outflow tract obstruction I Chamtouri (12min)</p> <p>- Multimodality imaging of the right ventricular outflow tract H Mizouni (12min)</p> <p>- Reconstruction of the right ventricular outflow tract: a true art C Kortas, S Jerbi (12min)</p> <p>-What’s new in interventional treatment of the right ventricular outflow tract? A Fabio d’Aiello (12min)</p> <p>- Degeneration of the RV–PA conduit: what should be done? R Gargouri (12min)</p>	<p><u>Clinical cases: Gray zones in clinical practice: when the guidelines don’t give the answer</u></p> <ul style="list-style-type: none"> • syndrome coronarien aigu Beyond the atherosclerosis: a rare etiology of acute coronary syndrome H. Frigui (8 min) <p>When ventricular hypertrophy is atypical: A multimodality imaging approach S. Saidane (8 min)</p> <ul style="list-style-type: none"> • A complicated myocarditis: when 	<p>Practical workshop: “Therapeutic education and smoking cessation: pillars of modern cardiovascular prevention”</p> <p>I. Mechri, A Elhraiech</p>

	<p>Discussion (15')</p> <ul style="list-style-type: none"> ○ The non-invasive approach: "Echo-dynamics" F Mghaieth (12') ○ The Invasive approach F Daly (12') 	<p>Discussion :30minutes</p>	<p>to make device? E. Legha (8 min) Mitral Valve prolapse: when timely surgery makes the difference! Z. Triki (8 min)</p> <ul style="list-style-type: none"> • When a bifurcation requires double stenting: the culotte technique put to the test in real-world practice F. Nouri (8 min) • Between surgical risk and therapeutic abstention: a case of giant cardiac tumor ! H. Thabet (8 min) • LV hypertrophy with elevated troponins : can 	
--	---	------------------------------	---	--

			<p>one train hide another? E Derbel (8 min)</p> <ul style="list-style-type: none"> • Discussion (30 min) 	
10H30 →11H00	Eposter 1			
11H00 →11H30	Eposter 2			
11H30 →13H00	<p>Artificial Intelligence in the Prediction and Prevention of Sudden Cardiac Death</p> <ul style="list-style-type: none"> • ECG-based prediction of sudden cardiac death risk M Hentati (12') • Cardiovascular imaging–based prediction of sudden cardiac death risk C Chourabi (12') • Data from implantable cardioverter-defibrillators and wearable devices for prediction of VT/VF events S Kammoun (12') • Artificial intelligence and prevention of sudden cardiac death in athletes. A Mahdhaoui (12') 	<p>Visceral Aortic Aneurysms: What Strategies in 2026 in the Era of Advanced Techniques?</p> <ul style="list-style-type: none"> • Visceral aortic aneurysms: epidemiology, natural history, and current challenges H. Daly (15') • Total endovascular treatment: the new standard for visceral aortic aneurysms? T. Sraieb (15') • Hybrid approaches to visceral aortic aneurysms: when combining surgery 	<p>Ebstein’s Disease in all colors !</p> <ul style="list-style-type: none"> • Ebstein’s Disease: Echocardiographic Diagnosis K. Hakim (12min) • Role of Cardiac MRI in the Assessment of Ebstein’s Disease I. Ben Yaakoub (12min) • Preoperative Evaluation in Ebstein’s Disease A. Fabio d’Aiello (12min) • Challenges in the Surgical 	<p>Young adults in the ICCU: The after-Gen X: What are the challenges?</p> <ul style="list-style-type: none"> • Already a “5-time myocarditis”: Is it a relapse or de novo inflammation?: B Besbes (10') • My youngest ACS case A Noomen (10') • My youngest CCS case H Denguir (10') • When cancer hits hard A Ben Salem (10')

	<ul style="list-style-type: none"> Risk stratification of sudden cardiac death: AI versus guidelines W Ayedi (12') <p>- Discussion (30')</p>	<p>and endovascular treatment becomes essential Y Khadhar (15')</p> <ul style="list-style-type: none"> Surgical treatment: a reliable option for complex visceral aortic aneurysms? I. Mgarrech (15') What do the literature and guidelines say? F. Aouini (15') Discussion (15') 	<p>Management of Ebstein's Disease F. Ghdira (12min)</p> <ul style="list-style-type: none"> Role of Interventional Catheterization in Ebstein's Disease: A Clinical Case E. Naffeti (12min) Antenatal Evaluation in Ebstein's Disease: Many Uncertainties. D. Abid (10 min) <p>Discussion : 20 min</p>	<ul style="list-style-type: none"> Recreational drug leading to non-recreational hospitalisation: A 5-day stay in the ICCU Z Oumaya (10') A 2-day stay S Aissa (10') <p>Discussion (15')</p>
13H00 →13H30	Epoper 3			
13H30 →14H30	Lunch and Practice (Hands On sessions)			
14H30 →16H00	<p>Challenging Situations in Cardio-Oncology</p> <ul style="list-style-type: none"> Disease in a Patient With Cancer I. Kammoun (12') Pulmonary Embolism in a Patient Followed for a Brain Neoplasm S. Chenik (12') 	<p>Hypertension in Special Clinical Situations</p> <p>Hypertension and Orthostatic Hypotension A. Joulak (15')</p> <ul style="list-style-type: none"> Hypertension and Primary Hyperaldosteronism M. Jmal (15') 	<p>Clinical cases : Right Heart Failure – Challenging Cases</p> <ul style="list-style-type: none"> Constriction: Is It Easy to Diagnose? L Abid (10') Chronic Thromboembolic Pulmonary Heart 	

	<ul style="list-style-type: none"> • Chest Pain in a Patient Receiving Tyrosine Kinase Inhibitors (TKIs): What Should Be Considered? S. Charfeddine (12') • Immunotherapy-Related Myocarditis: When Should It Be Suspected? E. Bennour (12') When the HFA–ICOS Risk Score Is Not Followed! S. Neji (12') • Discussion (30') 	<ul style="list-style-type: none"> • Hypertension and Pregnancy F. Yahia (15') • Hypertension in Children R. Gargouri (15') • Discussion (30') 	<p>Disease: A Diagnostic Challenge! <i>S Antit (10')</i></p> <ul style="list-style-type: none"> • Arrhythmogenic Right Ventricular Dysplasia: A Rare Cause of Right-Sided Heart Failure <i>E Testouri (10')</i> • Ebstein's Disease: When Right-Sided Heart Failure Complicates Congenital Heart Disease <i>I Bouhleb (10')</i> • Tricuspid Regurgitation After Valve Repair: Failure, Recurrence, or Disease Progression? <i>W Ouechtati (10')</i> <p>Post-Cardiac Pacing Heart Failure: An Underestimated</p>	
--	--	---	--	--

			<p>Complication <i>H Bouraoui (10')</i></p> <ul style="list-style-type: none"> • Discussion (30') 	
<p>16H00 →16H30</p>	<p>The results of NATURE STOP CHD registry</p> <p>Y Ben Ameur</p>			
<p>16H30 →17H00</p>	<p>Eposters 4</p>			
<p>17H00 →18H30</p>	<p>GTCI Challenging cases</p> <ul style="list-style-type: none"> • Dissection coronaire spontanée nécessitant une intervention urgente : quelle conduite tenir ? When SCAD needs an urgent intervention, what to do? A. Ben Abdessalem (8') • Thrombus Aspiration During PCI: Time to Abandon or Time to Refine? F. Ennouri, H. Belkhyria (8') • When the Proximal Cap Is Unclear: CCTA to the Rescue F. Zouari (8') • Where Is My Guidewire Exactly? Z. BelHaj (8') 	<p>The Heart Hypertrophy Through the Lens of Multimodality Imaging</p> <ul style="list-style-type: none"> -Hypertrophic Cardiomyopathy on Echocardiography: Beyond Wall Thickness H. Mahjoub (15 ') - Hypertension and Cardiac Remodeling: What Echocardiography Reveals Y. Messoudi (15 ') - The Echocardiographer's Eye A. Chetoui (15') - Hypertrophic Cardiomyopathy or Athlete's Heart? Discriminating 	<p>Practical Workshop: "Cardiovascular Risk Stratification in Patients With Hypertension: The Role of the POPMETER in Clinical Practice"</p> <p>N Cherif</p>	

	<ul style="list-style-type: none"> • Coronary Perforation: Time to Turn Off the Tap! H. Ben Slima (8') • Szabo to the rescue... until it wasn't S. Habboubi (8') • Sometimes, It's Still Not Enough! Some times it's not enough! A. Noemen (8') • Discussion (30') 	<p>Echocardiographic Criteria R. Tlili (15')</p> <p>- The Heart Hypertrophy: Cardiac MRI in Action A. Zidi (15')</p> <p>- Discussion : 15 min</p>

Friday 13 November 2026

	<p>Salle 1 Plénière</p>	<p>Salle 2</p>	<p>Salle 3</p>	<p>Salle 4</p>
--	-----------------------------	----------------	----------------	----------------

<p>8H30 – 10H00</p>	<p>Contemporary Antithrombotic Management in ACS: Dual, Triple, or Tailored?</p> <p>Dual Antiplatelet Therapy in ACS: Evidence, Duration, and Controversies H Gamra (TN) (15')</p> <p>Balancing Bleeding and Thrombosis: How Minimal is Safe? R Hammami (TN) (15')</p> <p>ACS and Atrial Fibrillation: Is There Still a Role for Triple Therapy? M Slim (TN) (15')</p> <p>Tailoring Antithrombotic Therapy: From Genomics to Platelet Function Testing G Montalescot (FR) (15')</p> <p>Discussion (30')</p>	<p>Tricuspid Regurgitation Revisited: New Concepts for a Neglected Valve</p> <p>-Quantifying and Grading Tricuspid Regurgitation: Tools and Pitfalls H Drissa (TN) (15')</p> <p>-Patient Selection for Transcatheter Tricuspid Repair or Replacement (T-TEER) E Donal (FR) (10')</p> <p>- Percutaneous Therapies for TR: Current Techniques and Outcomes S Noble (FR) (15')</p> <p>-Is There Still indication for Surgical Tricuspid Valve Repair or Replacement? M Abdennadher (TN) (15')</p> <p>- Discussion (30')</p>	<p>Bridging the Beat and the Brain: A Cardio Neurology Session</p> <p>Stroke in patients with AF</p> <p>-The Perspective of Cardiologist</p> <p>-M Abdelhamid (EG) (15')</p> <p>-The Perspective of Neurologist R Gouider (TN) (15')</p> <p>ESUS : Phenotypes and management H Salah (EG) (15')</p> <p>When to start anticoagulation after cerebral hemorrhage in patients with Prosthetic valves and /or Atrial fibrillation ? A Joulak (TN) (15')</p> <p>Discussion (30')</p>	<p>Cardiogenic Shock in 2025: From Chaos to Control</p> <p>Updates on latest trials in cardiogenic shock</p> <p>H Ben Ayed (TN) (15')</p> <p>Inotropes and Circulatory Assistance in Refractory CS: How far can you go?</p> <p>A C Martin (FR) (15')</p> <p>Electrical Storm Meets Shock: Interference or coexistence - mechanisms and management ? R Chettaoui (TN) (15')</p> <p>RV shock: What to do and what not to do A Mebazaa (FR) (15')</p> <p>Discussion (20')</p>
-------------------------	--	---	--	---

10H30 – 11H00	Eposter 5				
11H00 – 11H30	Eposter 6				
11H00 – 12H30	<p>Atrial Fibrillation Today: Evolving Strategies in Detection and Intervention</p> <p>AF Screening in 2025: Who Really Benefits? E Allouche (TN) (15')</p> <p>Is there still room for rate control? S Ouali (TN) (15')</p> <p>Ablation Technologies Under Debate: Energy Sources in Focus – One shot (Cryo/ PFA) S Boveda (FR) – Point by point R Chettaoui (TN) (10')</p>	<p>Crossroads in 2025 Cardio-Oncology: Balancing Cardiac Health and Cancer</p> <p>Immune Checkpoint Inhibitors: Recognizing and Managing Myocarditis M Mirabel (FR) (15')</p> <p>Targeted Therapies and Hypertension: Managing the Unpredictable S Chenik (TN) (15')</p> <p>Imaging to detect Cardiotoxicity: Beyond LVEF and Strain — What's Next? E Bennour (TN) (15')</p> <p>Long term cancer survivorship: Cardiovascular Challenges and Care M Mirabel (FR) (15')</p>	<p>Living on the Edge: Advancing Care in End-Stage Heart Failure</p> <p>LVADs: Who, When, and Why? S Mourali (TN) (15')</p> <p>Guideline-Directed Therapy in LVAD Patients: One Size Fits All? A C Martin (FR) (15')</p> <p>From LVAD to Transplantation U Kervan (TR) (15')</p> <p>LVADs in Tunisia: Local Insights, Global Relevance J Ziadi (TN) (15')</p>	<p>Meet the Expert</p> <p>Cracking the Calcium: Imaging & Innovation in Complex PCI</p> <p>Know Your Enemy: Role of IVUS and OCT in identifying and quantifying calcium N Amabile (FR) (15')</p> <p>Orbital Atherectomy: Key differences with rotational atherectomy F Zouari (TN) (15')</p> <p>Shockwave IVL: Break It, Don't Burn It _How IVL fractures calcium safely A Bahloul (TN) (15')</p> <p>_Ideal lesion types and results from trials H Ben Hmed (TN) (15')</p>	

	<p>EHRA Consensus Papers: What's Next for AF Management?</p> <p>H Puererfellner (15')</p> <p>Discussion (25')</p>	Discussion (30')	Discussion (30')	<p>Building Your Calcium Toolbox: Algorithm for lesion preparation S Boudiche (TN) (15')</p> <p>Discussion (15')</p>
--	--	------------------	-------------------------	---

12H30 – 13H00	Eposter 7			
---------------------	-----------	--	--	--

13H00 – 14H00	Eposter 8			
---------------------	-----------	--	--	--

<p>14H00 – 15H30</p>	<p>TAVI: Not Always So Simple!</p> <p>PCI in complex TAVI Patients T Ellouze (TN) (15')</p> <p>TAVI in Bicuspid Aortic Valve Disease S Noble (FR) (15')</p> <p>Redo TAVI: Choosing the Right Platform for Each Patient M Gilard (FR) (15')</p> <p>Insights from the TAVI.TN Registry 2025 N Hajlaoui (TN) (15')</p> <p>Discussion (30')</p>	<p>Meet The Expert</p> <p>HFrEF on the Edge: Precision Therapy for High-Risk Populations</p> <p>A State-of-the-Art Update for 2025</p> <p>Initiating HFrEF Therapy Before Discharge A Mebazaa (FR) (15')</p> <p>Fragile but Not Forgotten: Tailoring HFrEF Treatment in the Elderly and Frail H Ben Slima (TN) (15')</p> <p>Hypotension in HFrEF: Therapeutic strategies when BP limits you E Neffati (TN) (15')</p> <p>Renal Failure and HFrEF: Navigating the Cardio-Renal Continuum L Abid (TN) (15')</p> <p>Discussion (30')</p>	<p>Lifelong Cardiovascular Prevention: From Guidelines to Impactful Practice</p> <p>Primary Prevention in the High-Risk Elderly: Challenges and Priorities M Alami (MA) (15')</p> <p>Secondary Prevention: Reaching Targets and Going Beyond S Milouchi (TN) (15')</p> <p>Identifying Residual Risk: Who Are the Patients We're Still Missing? K Ben Hamda (TN) (15')</p> <p>NATURE STOP-CHD Tunisian Registry: First Insights into Real-World Prevention I Zairi / M Drissa (TN) (15')</p> <p>Discussion (30')</p>	<p>PVCs Under the Spotlight: Risk, Rhythm, and Real-Life Decisions</p> <p>PVC Evaluation in daily practice A El Hraiech (TN) (15')</p> <p>When PVCs Aren't So Benign: Cardiomyopathy Risk and Management in Isolated PVCs A Moustaghfir (MA) (15')</p> <p>PVC Origins and Ablation Strategies Across Clinical Scenarios F Halimi (FR) (15')</p> <p>PVCs in Athletes: Detrain or stop? A Mahdhaoui (TN) (15')</p> <p>Discussion (30')</p>
------------------------------	---	--	---	--

16H00	Coffee break
—	
16H30	

<p>16H30 – 18H00</p>	<p>Infective Endocarditis: State of the art in 2025</p> <p>Multimodality Imaging and Nuclear Tools in Endocarditis D Agostini (FR) (15')</p> <p>CIED Infections: From Diagnosis to Treatment A Haggui (TN) (15')</p> <p>Timing is Everything: Surgical Decisions in valvular Infective Endocarditis M Drissa (TN)(15')</p> <p>Guidelines in Motion: What's New in Endocarditis Consensus? B lung (FR) (15')</p> <p>Discussion (30')</p>	<p>Percutaneous Valve Interventions: Emerging Challenges and Future Directions</p> <p>Antithrombotic Therapy After Transcatheter Mitral and Tricuspid Valve Procedures: Evidence and Controversies G Montalescot (FR) (15')</p> <p>Subclinical Leaflet Thrombosis After TAVI: Clinical Relevance and Imaging Clues D Lahidheb (TN) (15')</p> <p>Conduction Disturbances Post-TAVR: Predictors, Prevention, and Management A Ben Halima (TN) (15')</p>	<p>Primary SCD Prevention in High-Risk Overlooked Populations</p> <p>Living, Not Just Surviving: SCD Risk, ICDs, and the New Frontiers of Prevention E Marijon (FR) (12')</p> <p>Who Needs Protection in Non-Ischemic Dilated and Hypokinetic Non-Dilated Cardiomyopathies? M Ben Halima (TN) (12')</p> <p>Risk Stratification in Myocarditis and Cardiac Sarcoidosis M Jabeur (TN) (12')</p> <p>The Silent Threat of the Right Ventricle: SCD Prevention in ARVC P Defaye (FR) (12')</p>	<p>Artificial Intelligence in Heart Failure preserved EF: Friend or Foe?</p> <p>Artificial intelligence in the detection and diagnosis of HFpEF: the past, present, and future S Abdessalem (TN) (15')</p> <p>AI-assisted heart failure management: clinical applications and future directions E Lagha (TN) (15')</p> <p>Heart failure risk stratification using artificial intelligence S Kamoun (TN) (15')</p> <p>Challenges and future directions for application of AI in HF M Hentati (TN) (15')</p>
------------------------------	---	---	--	---

		<p>Durability of Transcatheter Valve Devices: What Do We Know So Far?</p> <p><i>N Karam (FR)</i> (15')</p> <p>Discussion (30')</p>	<p>Brugada Syndrome: Who Should Get an ICD in 2025?</p> <p><i>JC Deharo (FR)</i> (12')</p> <p>Discussion (30')</p>	<p>Discussion (30')</p>
--	--	--	--	--------------------------------

Saturday 14 November 2026

	Salle 1	Salle 2 SIDI BOUSAID	Salle 3
9H00 → 10 H30	<p>=</p> <p>Personalized Heart Failure Management in Complex Clinical Settings</p> <ul style="list-style-type: none"> • Myocarditis and Heart Failure: From Inflammation to Dysfunction <i>I. Bouhlel (15')</i> • Heart Failure in the Elderly: Toward Personalized Care <i>L. Abid (15')</i> • Recovered but Not Cured: The New Face of Heart Failure <i>S. Antit (15')</i> • Depression in Heart Failure: More Than Just a Comorbidity <i>F. Ghrissi (15')</i> • Discussion (30') 	<p>Recent Advances in the Management of Dyslipidemias</p> <ul style="list-style-type: none"> - Should We Be Aggressive in Primary Prevention? I Mechri (12') -Secondary Prevention: Beyond LDL Cholesterol K. ben Hamda (12') - Intensify Without Delay: The Value of Early Combination Strategies F. Azaiez (12') - The Microbiota: A New Lever in the Management of Dyslipidemias H. Ben Slima (12') - ESC 2025 Guidelines: Key Messages R. Kallel (12') - Discussion (30') 	<p>Practical workshop Pacemaker programming</p>

10H30 →11H00	Eposter 9		
11H00 →11H30	Eposter 10		
11H30 →13H00	Updated Management of Ventricular Tachycardias <ul style="list-style-type: none"> - ECG Diagnosis of Ventricular Tachycardias M Jabeur (15 ') - Immediate Management of Ventricular Tachycardias M Ben Halima (15') - Management of Electrical Storms A Elhraiech (15 ') - Indications for ICD in Ventricular Tachycardias E Allouche (15 ') - Role of VT Ablation in the Therapeutic Strategy A Haggui (15 ') - Discussion (15') 	La cardio-neurologie « FOP/LAAO, a case based learning session » <ul style="list-style-type: none"> • PFO, to close or not to close? D. Ben Mohamed (10') • PFO closure, tools and techniques. E. Neffati, H. Ghardallou (10') • Amyloid angiopathy, and CVD indications to LAAO. M. Messelmani (10') • The Role of Imaging in PFO and LAA Closure S. Chenik (10') • Watchman Step by Step M. S. Mourali (10') • Amulet Step by Step S. Kasbaoui (10') • Discussion (30') 	<u>Let's talk about cardiomyopathies!</u> <ul style="list-style-type: none"> • Left ventricular hypertrophy: cardiomyopathy or adaptation? S. Saidane (15') • Early-stage Dilated cardiomyopathy: recognizing subtle signals H. Bouzidi (15') • Dyspnea with preserved ejection fraction: consider infiltrative cardiomyopathy H. Thabet (15') • Visualizing the Invisible: Imaging at the Core of Clinical Decision-Making F Triki (15') <ul style="list-style-type: none"> • Discussion (30')
